CREATE A CONTINUOUS CYCLE OF
MASTERY IN YOUR SCHOOL DISTRICT

“ Without Mastery in Motion
even simple data retrieval
and reporting would have
completely taxed our staff.”

Laurie Simmons

Instructional Technology Coordinator

“ Every instructional staff member has
access to this program for students in
their program or school. Depending
upon the need, teachers can easily
choose class rosters or individual reports
to examine information. Building or
district staff can look at data across
grades, programs— everything.”

“Mastery in Motion has provided us with information far beyond what we had expected.”

Dr. Darcy Rourk
Assistant Superintendent
Canby School District

“ We can make program decisions, respond to the state’s requests for information, and data in more ways than we can think of.

We can do individual reports for parents to communicate their student’s progress.

Teachers can use the information to make day-to-day decisions regarding the instruction in their classroom.

And this is just the beginning!”
